The Lost Tribes of Israel Series by Steven M. Collins Sugg. Gift: $20.00 each

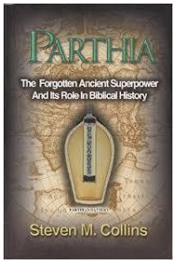

Book one*: 814 – *THE ORIGINS AND EMPIRES OF ANCIENT ISRAEL. This book tells the story "behind the story" of early Israel by combining little-noticed Scriptural details with historical and archaeological finds. Its central focus is the important and far-reaching Abrahamic promises too long ignored or glossed over. For example, one of the important promises to Abraham is a little-noticed passage in **Genesis 21:12**, where God said to Abraham, ***"...through Isaac shall your descendants be named."*** Extensive documentation of 256 pages, with a bibliography and twenty-one page index, and well over a hundred maps, charts, and illustrations throughout the text.

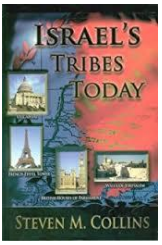

Book two: 813 – ISRAEL'S LOST EMPIRES. This book of 280 pages takes the reader on a historical tour of Israel's colonization of western lands in early times. In his opening chapter, author Steven Collins discusses the golden age of the Israel-Phoenician Empire and shows that Solomon and David were the real power brokers of that era. Phoenicia was a small strip of territory about ten miles wide along a small section of the Mediterranean coast, and a look at the map shows that the nation of Israel far exceeded it in size. Yet the Phoenicians today receive all of the credit for the scientific and navigational skills of the era, as if the Israelites had no participation at all. Very well documented, the book includes over 100

maps, charts, and illustrations, and 27 pages of extensive indices.

Book three: 815 – **PARTHIA – The Forgotten Ancient Superpower and Its Role in Biblical History.** Although little known to modern readers, the ancient kingdom of Parthia played a key role in historical and Biblical events. It boasted one of the greatest kingdoms of the ancient world and was the one empire that Rome actually feared. Just decades before the birth of Christ, its armies drove the Romans completely out of Palestine, Syria, and Asia Minor, forcing King Herod to flee for his life. Who were the Parthians? New research is presented proving a Semitic-Israelite connection and even a link to King David within the Parthian royal family.

Book four: 818 – **ISRAEL'S LOST TRIBES, TODAY.** This fourth book of a series identifies the modern locations of the tribes of Israel, and it examines the migrations that brought them to their current locations. Modern world geopolitics will be seen in an entirely new light as a result. With these clues direct from the pages of Bible prophecy, the author adds additional Biblical and historical evidence in order to construct a framework to identify these tribes in the modern world. Remember that the Biblical tribal prophecies were for the latter days and therefore must see fulfillment in our present world.

The author of these books believes that the Jews are Judah which we disagree with, but the history he gives is well worth reading despite this error. We believe that Germany is correctly identified as the tribe of Judah.

Eschatology – any system of doctrines concerning last, or final matters, as death, the Judgment, the afterlife, etc.

I have been examining the historicist, preterist, and restitution perspectives. I believe the Historicist position.
